- Node.js & Express.js
- Python Development
- Java Programming
- TypeScript / JavaScript
- PostgreSQL & MongoDB
- RESTful API Design
- AI Integration
- Git & GitHub
- Docker (Basics)
- Agile/Scrum Workflow
- Problem Solving & Debugging
- Responsive Web Design
- Cloud Deployment
- Stripe Payment Integration

LANGUAGES

- English (Fluent)
- Urdu (Fluent)

PROFILE

Full-Stack & AI Engineer skilled in React, Next.js, Node.js, Python, and Java, with hands-on experience building production-ready SaaS platforms and AI-powered applications. Proficient in integrating AI tools like Claude and Gemini APIs and designing scalable backend systems with PostgreSQL. Delivered independent projects, including an AI-driven CRM platform, a lead-generation SaaS, and automation dashboards for clients in real estate, HR, and business sectors. Currently pursuing a BS in Computer Science while continuing to strengthen expertise in AI-native application development.

WORK EXPERIENCE

Qanoon Bridge—Legal-Tech SaaS Platform 2022-2026

Built a multi-tenant, AI-assisted legal platform connecting citizens with verified lawyers across Pakistan, using Next.js, React, TypeScript, and Express.js with PostgreSQL

AI Lead Generation SaaS 2025-2026

Built a full-stack, AI-powered B2B lead-generation platform using Python (FastAPI) and Next.js, featuring JWT authentication, a PostgreSQL/SQLAlchemy backend, OpenAI-driven lead scoring, and Stripe-integrated subscription billing

PhytoPathometric — AI-Powered Plant Disease Detection App 2025-2026

Developed a cross-platform (web + Android) plant disease detection application using React 19, TypeScript, and a Python (FastAPI) AI backend leveraging OpenCV, scikit-image, and CIELAB color-space analysis for automated leaf health assessment

Apex AI—AI-Powered Trading & Market Analysis Assistant 2025-2026

Built a full-stack trading assistant using Node.js, Express, and MongoDB, integrating Google Gemini API with real-time market data (CoinGecko, Twelve Data) for live-grounded analysis, plus a trading journal, price alerts, and JWT-secured authentication

EDUCATION

Bachelor of Computer Science 2022-2026

School of agriculture | Muhammad Nawaz Sharif
University of Agriculture Multan
